

## Protecting products with a holographic fingerprint

Authentic Vision (AV) offers a mobile authentication solution used by customers worldwide for brand protection and consumer engagement. Headquartered in Salzburg, Austria Authentic Vision is a rapidly growing company with a global team.

Our solution is based on irreproducible tags that provide any product with a unique copy-proof fingerprint. The tags can be authenticated by anyone with the use of a smartphone app. A business intelligence portal provides channel & consumer data intelligence based on the scans. Authentic Vision holds several patents and is cooperating closely with a global network of partners to fight counterfeiting.

AV has been successful in signing agreements with US based customers such as HDMI (4K label licensing program) and international customers like Danfoss, Kanthal, Guala Closures, Elsewedy and Vulli (Sophie Le Giraffe). The company is poised for significant growth and offers a flexible and rewarding environment which recognizes talent and commitment.

To support realizing our vision and improve our technology further, we're looking to hire a

## (Junior) Mobile Developer (F/M/D)

As **Mobile Developer**, you will play a key role in supporting the company's growth by developing our mobile apps and underlying technologies, such as the Authentic Vision Mobile SDK.

### You will:

- Be responsible for keeping our application frontends up to date with the latest mobile technologies, design changes, and business requirements
- Enhance and extend our mobile SDK for Android and iOS
- Build and maintain applications based on our SDK
- Ensure software quality by creating and maintaining an automated test platform

#### Authentic Vision GmbH

Ludwig-Bieringer-Platz 1, 5071 Salzburg, Austria | Phone: +43 720 98 44 60 | [www.authenticvision.com](http://www.authenticvision.com) | [info@authenticvision.com](mailto:info@authenticvision.com)

#### Authentic Vision Inc

19818 Merribrook Dr, Saratoga, CA 95070, USA | Phone: +1 415 577 4249 | [www.authenticvision.com](http://www.authenticvision.com) | [usa@authenticvision.com](mailto:usa@authenticvision.com)

### **Your profile:**

- You have a technical background or first-hand experience with building apps.
- You are interested in developing for both the Android and iOS platform.
- You have an eye for details, you are self-motivated and take responsibilities seriously.
- You know your way around Git for source code management.
- You are familiar with Kotlin/Java for Android development and Swift/Objective-C for iOS development. It is fine if your focus has previously been only one of those environments – we will help you get up to speed with the other.
- Besides English, you also have good conversational German.

### **What we offer:**

- You will work in a high growth company, supported by an international investor network, and contribute to a solution that intends to make the world safer, without counterfeits.
- Flexible work times, a goal-driven engineering approach, and friendly colleagues.
- Our existing Authentic Vision Android/iOS Mobile SDK technologies enable you to find a footing and develop yourself in the mobile app space.
- We strive to maintain high standards in code quality and engineering processes, and hence provide you with a mature codebase as starting point.
- Our open company culture enables you to explore and interact with other in-house projects and teams to expand your horizon beyond mobile development if desired.

In case you are interested, please submit your CV and cover letter including salary expectations and earliest starting date to:

Authentic Vision  
Oliver Kuckertz  
Head of Engineering  
Ludwig-Bieringer-Platz 1, 5071 Salzburg, Austria  
[info@authenticvision.com](mailto:info@authenticvision.com)

Due to legal reasons we are obliged to disclose the minimum salary according to the collective agreement for this position, which is €2.518 gross per month. Our compensation package is based on market-oriented salaries and depending on your background and work-experience, your salary could be significantly above the stated minimum salary.
