

# THE PERFECT SECOND AUTHENTICATION FACTOR: Immediately turn any Smartphone into a Secure Possession Factor

**SECURE TAGGING**

Secure your customer's account with AV's unique holographic fingerprint tag, so unique even we can't replicate it

**SIMPLE SCAN**

- Scan to authenticate and enable use cases e.g., mobile onboarding
- Integration into existing apps via SDK

**MOBILE ON-BOARDING**

Any smartphone will be immediately turned into a secure possession factor:

- During the initial onboarding process
- For additional onboarding need, e.g. loss, theft, defects etc.

**ISSUER USE CASES**

- High-risk / high amount transactions
- Approval of SEPA transactions
- Password reset
- PIN reset

...and more

**ECOMMERCE 3D SECURE**

Improved user experience (no knowledge factors required):

- Less transaction aborts
- Increase margin/revenue for issuers

**PHISHING PREVENTION**

Actual proof of ID to reduce phishing attempts:

- Social Engineering prevention
- Reduce risk of human factor
